

Setup Apple Developer Account

Um im App Store von Apple Apps publizieren zu können, muss jeder Entwickler/App Besitzer einen sog. Developer Account eröffnen. Basis dafür ist eine validierte Apple ID lautend auf die Organisation/Gemeinde/Geschäft des App Besitzers – inklusiv 2-Faktor-Authentifizierung (2. Apple Gerät, auf welches ein Verifizierungscode geschickt werden kann).

What You Need To Enroll

Enrolling as an Individual

If you are an individual or sole proprietor/single person business, get started by signing in with your Apple ID with [two-factor authentication](#) turned on. You'll need to provide basic personal information, including your legal name and address.

Enrolling as an Organization

If you're enrolling your organization, you'll need an Apple ID with [two-factor authentication](#) turned on, as well as the following to get started:

A D-U-N-S® Number

Your organization must have a D-U-N-S Number so that we can verify your organization's identity and legal entity status. These unique nine-digit numbers are assigned by Dun & Bradstreet and are widely used as standard business identifiers. You can check to see if your organization already has a D-U-N-S Number and request one if necessary. They are free in most jurisdictions. [Learn more >](#)

Legal Entity Status

Your organization must be a legal entity so that it can enter into contracts with Apple. We do not accept DBAs, fictitious businesses, trade names, or branches.

Legal Binding Authority

As the person enrolling your organization in the Apple Developer Program, you must have the legal authority to bind your organization to legal agreements. You must be the organization's owner/founder, executive team member, senior project lead, or have legal authority granted to you by a senior employee.

A Website

Your organization's website must be publicly available and the domain name must be associated with your organization.
